**GitHub URL:** <https://github.com/iuthub/group-project-ggwpteam.git>

**Website URL:** <http://ggwpteam.gq>

## **Brief Description:**

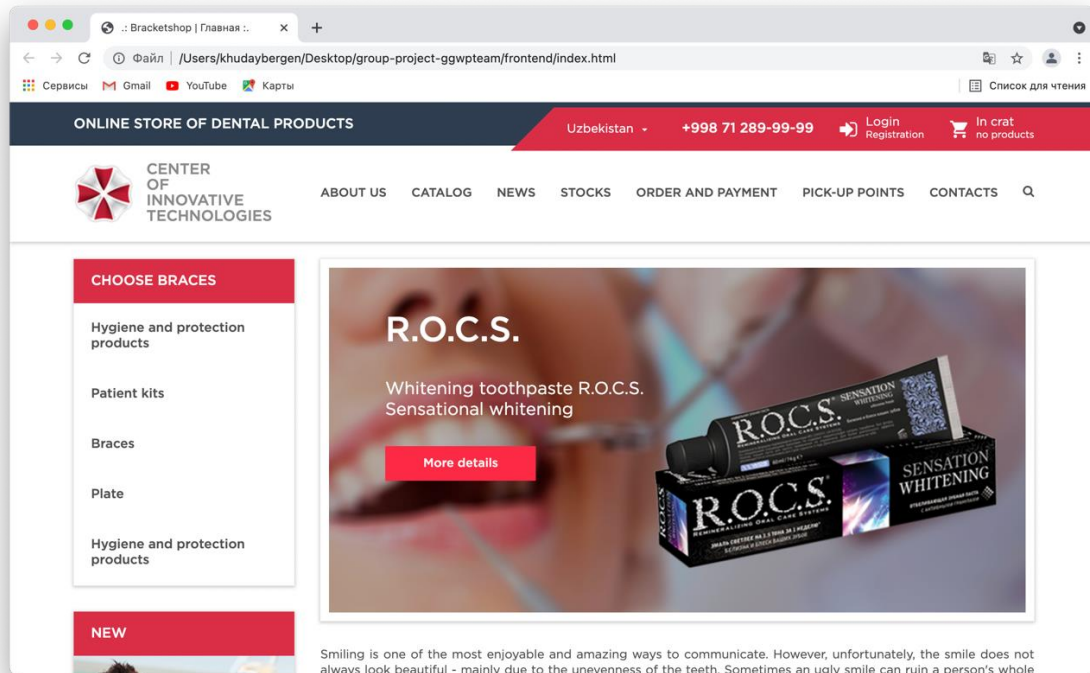

Recently, my team and I thought about the project and what kind of site should we choose for the project, what the site is about, what functions the site will have, and so on. And stumbled upon one suggestion why not make a website that sells dental products, since we have not seen such a website. And at the beginning of May we started to do the project.

## **The things that users/admins can in our website:**

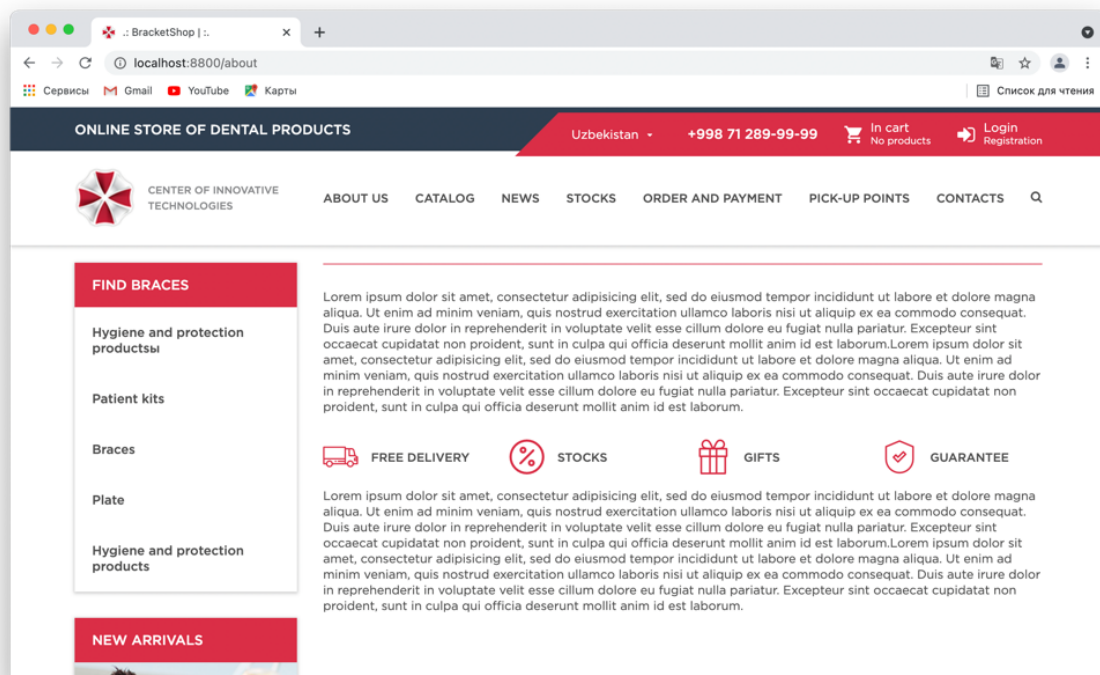

- Users can register
- Users can login
- Users can leave feedback
- Admin can add, update news/stocks and also delete them
- Users can check in browser using searching icon on top-right
- Also users can order and pay to the product (Soon...)

## Main Features:

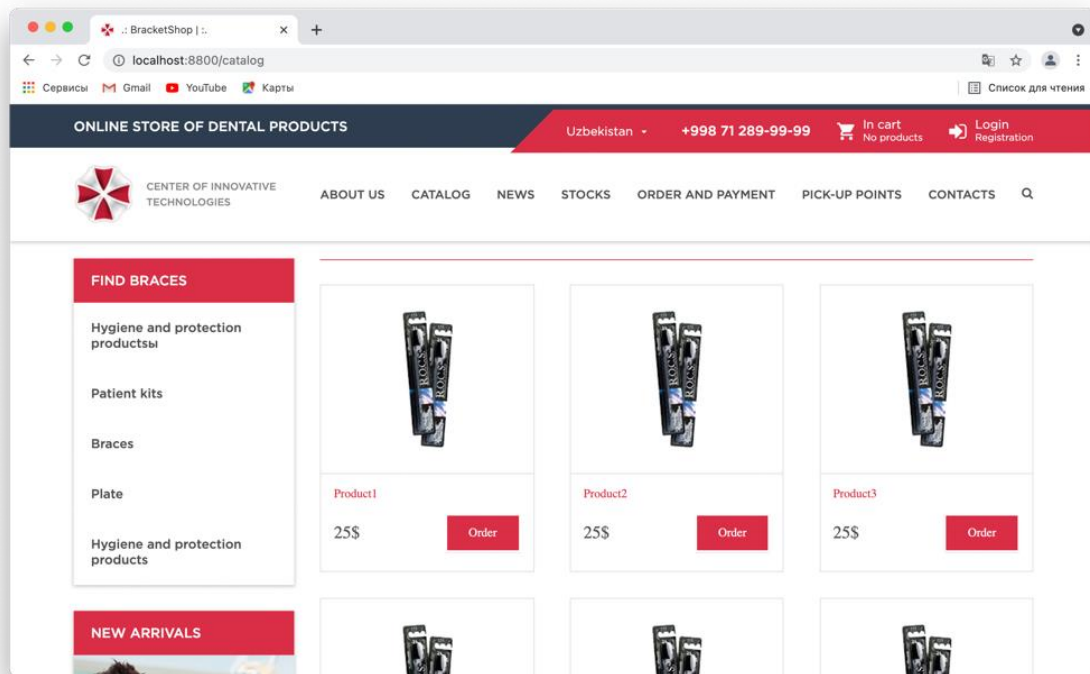

In the main page, you can see top right hand side login which by clicking you can register as customer. It will be shown later on in the report. On the bottom, there are free delivery, guarantee services available.

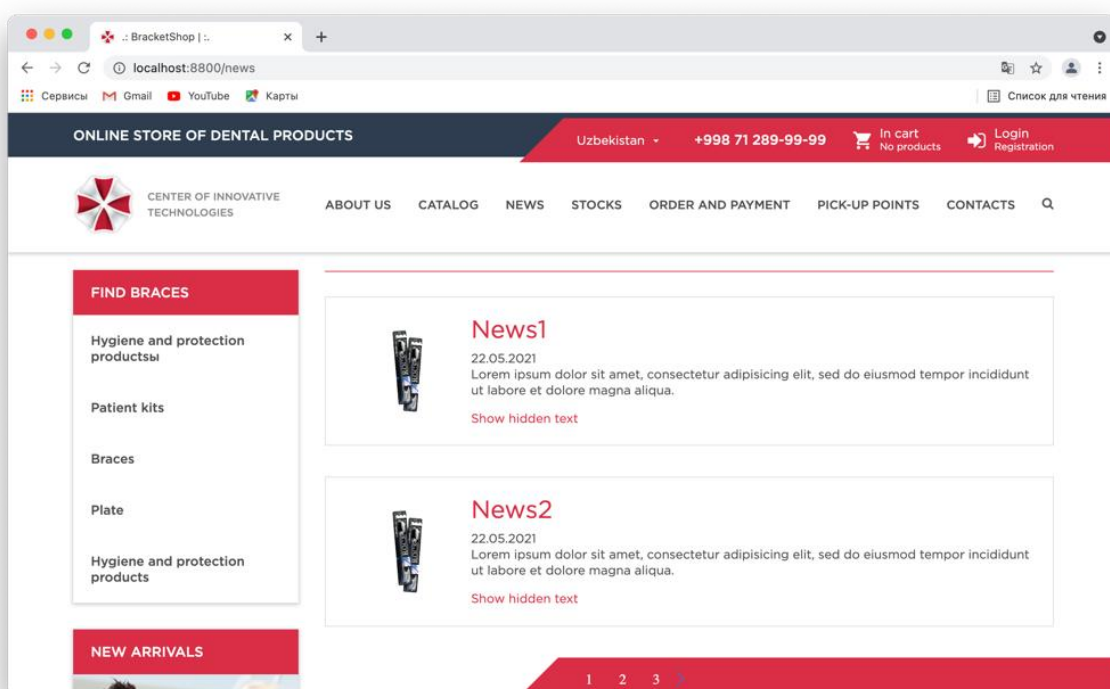

By clicking “About Us” button, new page appears where you can read info about web site.

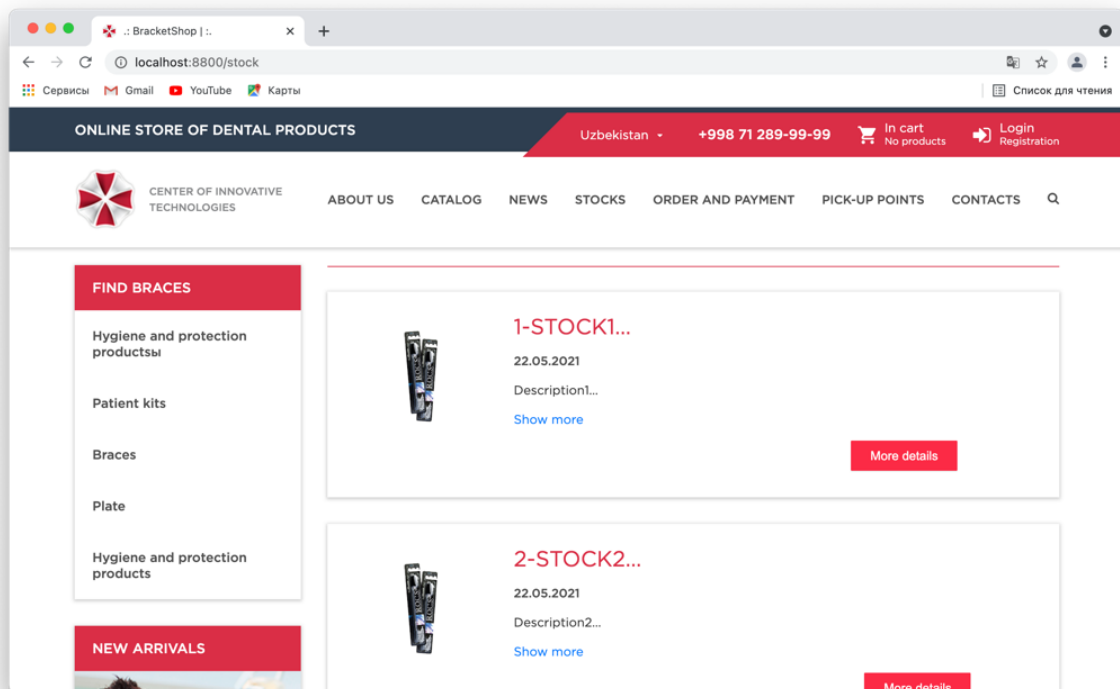

By clicking “Catalog” button you will go the catalog page where you can see different dental products and its price, and consumer can order.

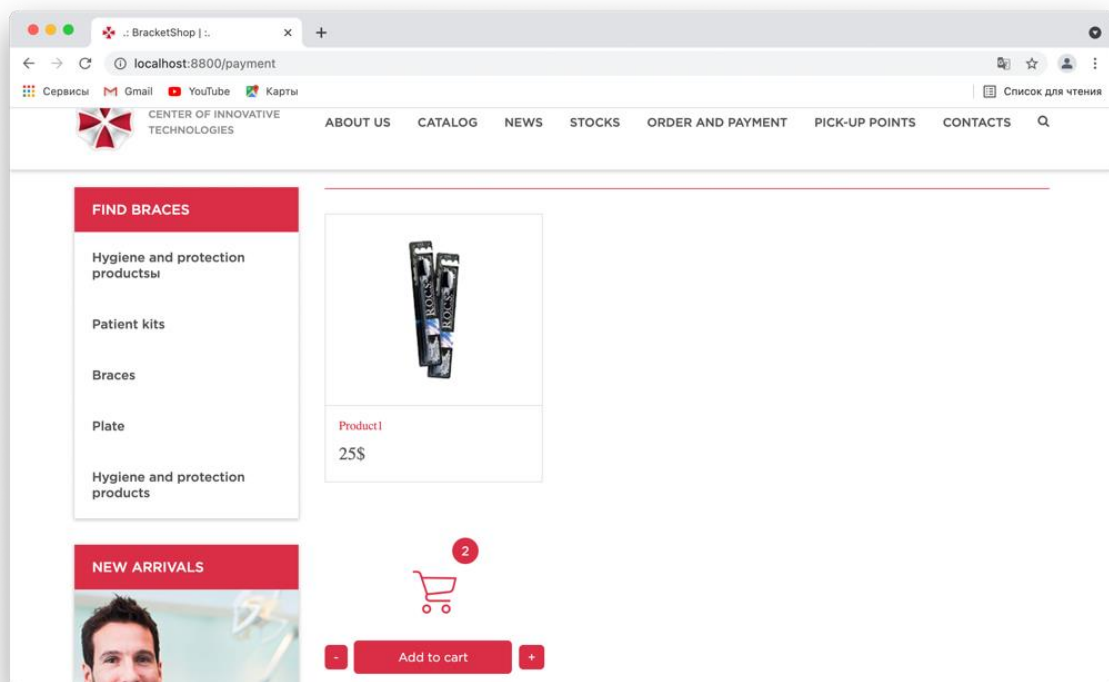

Next to Catalog there is News where user can familiar with news about products.

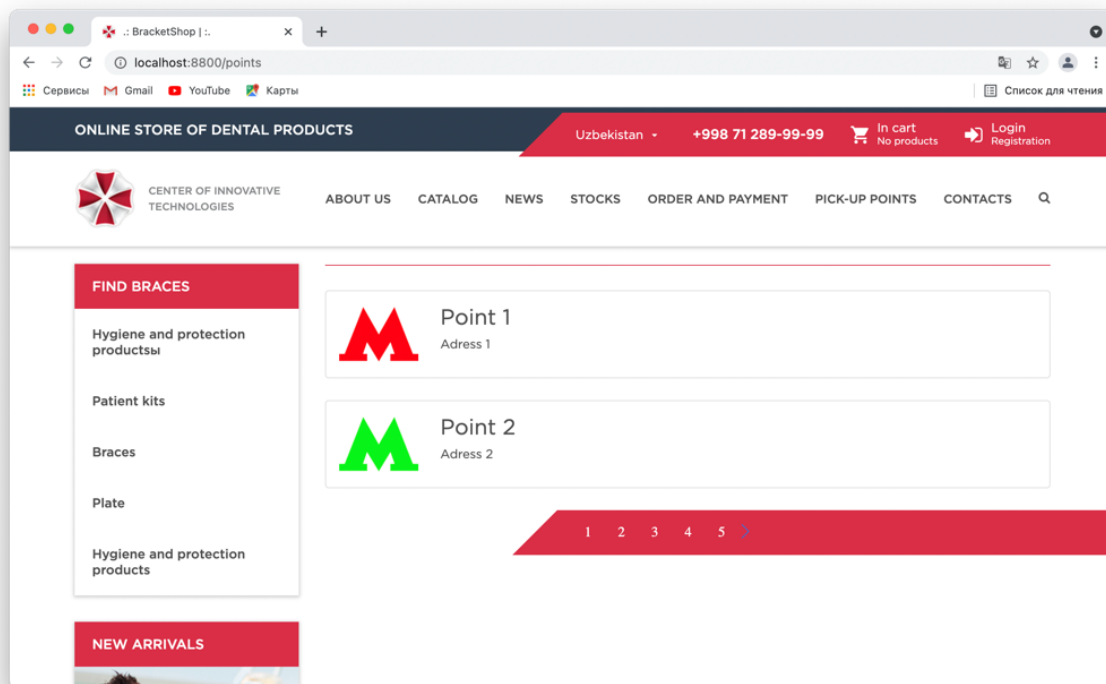

Next to News there is Stocks where users can see discounts on products.

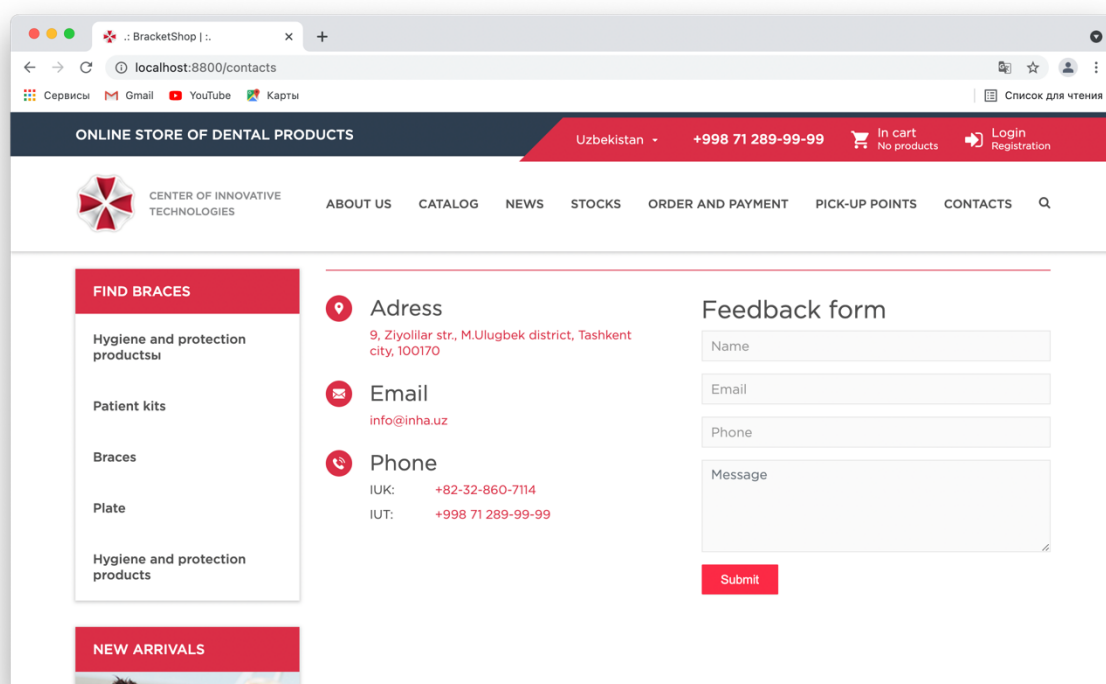

Next there is “Order and Payment” button where you can order the product which you choose, then you can make payment for it, this function works in the future.

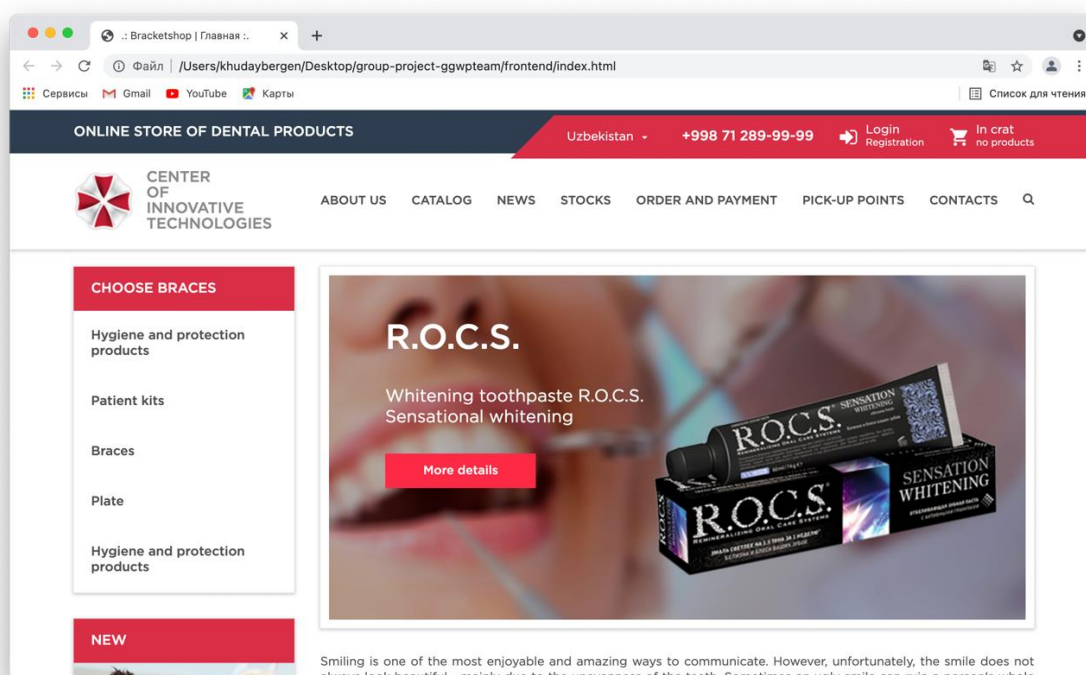

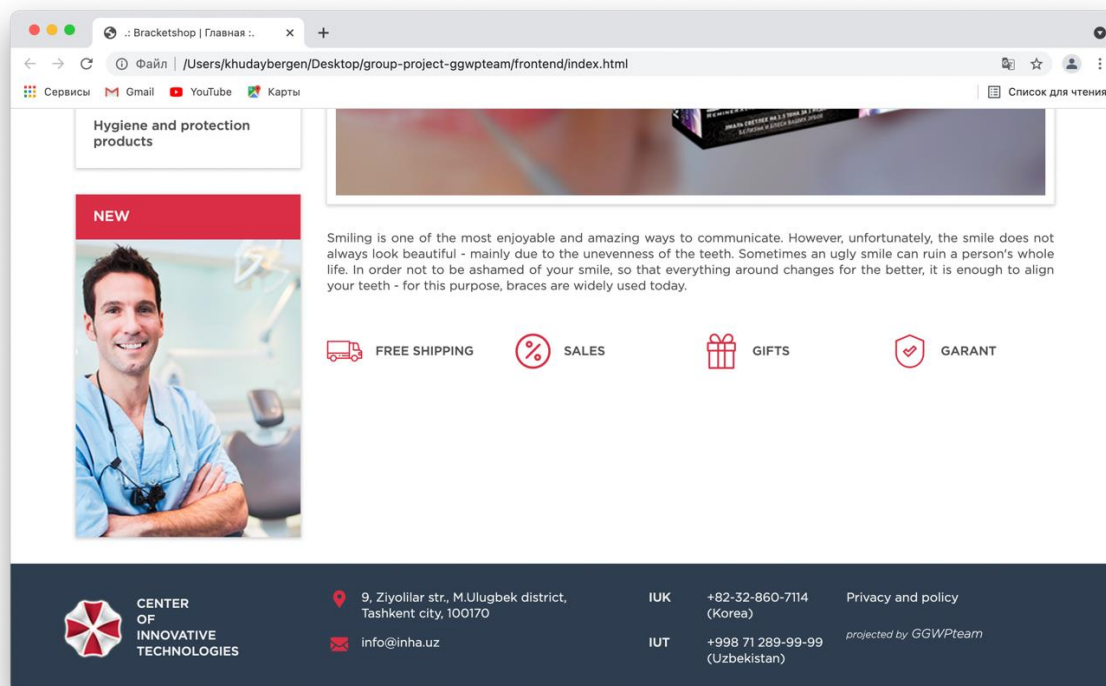

Pick-Up Points section is for delivery service that customer should points that address where order delivered.

In the end there is “Contacts” section customer can contact via email or telephone, moreover they can give some feedback about our web page and its services.

## Summary of members' contribution:

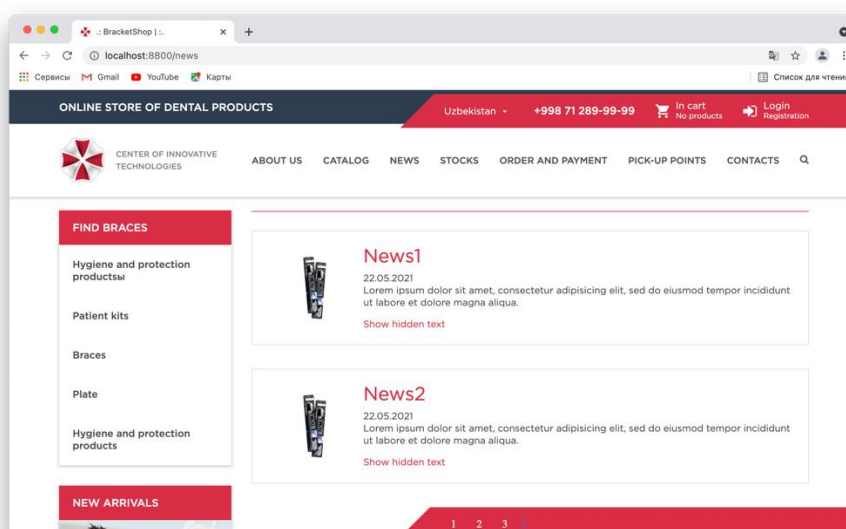

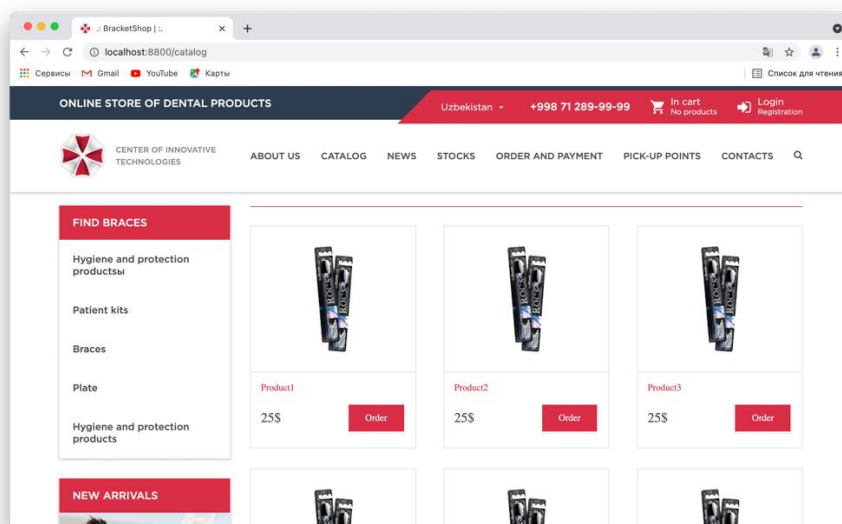

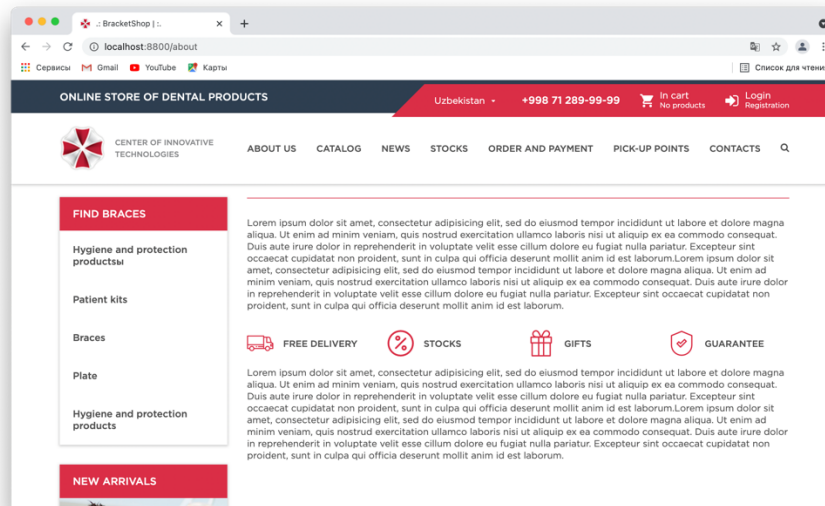

This is frontend done by Saidakbar.

## Login and passwords:

When new users visit the web page, they can register by clicking Login on the top right hand side. Then on the registration page they should fill every form and finish. Then there is created user profile, In this section users can edit their profile

The screenshot shows a web browser window with the URL `localhost:8800/auth`. The page has a header with a logo and navigation links. On the left, there is a sidebar with a red 'FIND BRACES' button and a list of categories: 'Hygiene and protection products', 'Patient kits', 'Braces', 'Plate', and 'Hygiene and protection products'. Below this is a 'NEW ARRIVALS' section with a photo of a man. The main content area is divided into two columns. The left column is titled 'Login' and contains a text input field with placeholder text 'Login~Заполните поле', a password input field, and a red 'Submit' button. The right column is titled 'Registration' and contains several input fields: 'Login', 'Name', 'Password', 'Repeat password', 'Email', 'Phone', 'Date of Birth', a country dropdown menu (currently showing 'Russia'), and radio buttons for 'Male' and 'Female'. There is also a file upload field labeled 'Файл не выбран' with an 'Обзор...' button. A red 'Submit' button is at the bottom of the registration form.
